

PRATHIT SHAANDILYA

Data Analyst

Noida, 201301 | shaandilyaprathit@gmail.com | shaandilyaprathit@icloud.com | [LinkedIn](#) | [GitHub](#)

PROFILE

Experienced analyst with a strong foundation in data science and technology. Self-driven, people- and process-oriented, with a track record of taking on new initiatives and driving ideas through to deliverable solutions.

Proficient in the Microsoft Office Suite, Power Platform, and Azure, with hands-on data analysis experience using Power BI and SQL. Holds fundamental AI knowledge and practical experience with a range of AI tools, and is actively building skills in AI agent development and Retrieval-Augmented Generation (RAG).

EMPLOYMENT HISTORY

Career Break, Health-Related Recovery

Noida, India

October 2023 – Present

- Took a planned career break beginning October 2023 to address a health-related matter requiring extended recovery time.
- Used part of this period to pursue graduate coursework (see Education); now ready to re-engage full-time in a data analytics role, available to start immediately.

Associate, Accenture

Gurugram, India

April 2023 – October 2023

- Selected for Accenture's Digital Transformation talent pool based on strong communication skills, client-facing experience, and consistent on-time delivery — considered for deployment across marquee accounts, including Google and Verizon process engagements.
- Deployed to a leading U.S. telecom operator account, serving as a One-Stop Shop across Business and Federal customer segments.
- Managed customer dispute resolution, credit analysis, upstream and cross-stream sales, retention, and account management across approximately 20 new accounts daily, valued between \$50-\$100 each.
- Exceeded KPI targets substantially, achieving an NPS of 90%, CSAT of 95%, and Average Resolution Time (ART) of 1,100 seconds.
- Retained 92% of at-risk clients through real-time negotiation, safeguarding recurring revenue.

Analyst, KPMG

Gurugram, India

October 2021 – February 2023

- Operated within KPMG's Governance, Risk and Compliance Services (GRCS) practice, specializing in the telecom sector as part of client-facing teams across international engagements.
- Partnered with a major South African telecom operator to revitalize processes, policies, and procedures across MNS, CSO, and S&D streams, delivering BPMN-based process maps via Microsoft Visio at a turnaround of 8 processes per week.
- Led a GAP Reporting tool engagement for a major Luxembourg-based steel manufacturing conglomerate, designing the wireframe and UI in Figma and building the solution using Power Apps and Power Automate in an Agile delivery model.
- Owned database setup, configuration, and post-deployment maintenance for the tool, supporting 100+ internal users at the client.
- Authored 2-3 new Power BI dashboards and maintained an additional 4-5 on a weekly basis, delivering ongoing reporting for senior management.
- Developed, deployed, and led UAT for in-house applications — a Project Management Tool and an Engagement Feedback Tool — built on Microsoft Power Platform and adopted by close to 200 users.
- Oversaw project deliverables for a team of 3 interns building a cross-platform mobile application in Flutter.
- Trained more than 50 participants on Microsoft Power Platform.

INTERNSHIPS

Summer Intern, Airport Authority of India

New Delhi, India

Completed a summer internship focused on Communication, Navigation and Surveillance (CNS) systems. Based at the newly built Air Traffic Services (ATS) facility for on-site training and hands-on experience with underlying network infrastructure and RADAR systems.

EDUCATION

MBA Coursework (Semester I), UPES

Dehradun, India

June 2025 – March 2026

Completed the first semester before opting not to continue, after determining that a future M.Tech would better align with long-term technical and data-analytics career goals, given significant subject overlap with prior professional experience.

B.Tech, Aeronautics, Amity University

Noida, India

June 2017 – July 2021

Major Project — Quadcopter Drones: Led the design, fabrication, and deployment of two quadcopters using Arduino Uno and Arduino Mega as flight controllers, built on open-source code and software.

CERTIFICATIONS

- AZ-900: Microsoft Azure Fundamentals — Microsoft
- Six Sigma Green Belt — Amity University
- Google Data Analytics Professional Certificate — Google
- Google Project Management Professional Certificate — Google
- Microsoft AI Business Professional Certificate — Microsoft
